- **Short Biography:**

Professor Yang is a general surgical doctor and received Medical Bachelor in Taipei Medical University. His major professional filed included GI tract disease, liver transplant and GI cancer disease. He has leading many research programs in China Medical University and Hospital and published over 200 references and papers in several medical journal and conference around the world.

Professor Yang is one of the few doctors who focus on Clinical Nutrition field in Taiwan and he received Master degree of Medical Science in China Medical University and Doctorate degree of Philosophy in Providence University in Taiwan. Since 2002, professor Yang has been the Chairman of the Department of Clinical Nutrition in China Medical University Hospital and leading the team to provide nutrition service in a 1800 beds, tertiary care medical center.

Professor Yang was the President of Taiwan Society for Parenteral and Enteral Nutrition (TSPEN) in 2013-2017. TSPEN is the most important bridge among doctors, clinical dietitians, r and nurses in Taiwan and it also provides the latest clinical nutrition knowledge on surgical nutrition, cancer nutrition, critical care nutrition, pediatric nutrition, geriatric nutrition, and long-term care nutrition (including both EN and PN).
